digi **GUARD**

Cyberspace Monitoring

With digital transformation comes digital risk. As your public digital footprint grows so does your exposure to possible threats. The deep and dark web harbours a massive source of data content and communication that often goes undetected and untraced. Digimune provides:

- Deep & Dark Web Monitoring for leaked digital identity assets:
 - Credit Card Number
 - Cell Phone Number
 - Email Address
- Device & Router Vulnerability Scanning & Protection
- Continuous scanning for security breaches across operating systems, applications & plugins
- Personalised Improvement Plan
- Cybersecurity Scoring & Reporting
- Real time system threat & scam prevention alerts

digi **CARE**

Restitution Support Services

Legal, restitution and psychological support services for cyber-related threat events.

Identity Theft Restitution Support Services

DigiCare provides extensive restitution services, in the event of online fraud or financial losses due to identity theft. We prove your innocence and reverse reputational damage and possible negative credit records due to unauthorised use of your identity or data.

Cyber Harassment Support Services

In the case of online emotional abuse (including cyberbullying, online threatening and intimidation, slander, harassment, stalking and revenge porn) our panel of professional and cyber-trained psychologists provides emotional support and mediation.

Cyber Event Legal Assistance

Should your case advance to a level where formal legal advice and court procedures are required, our panel of legal specialists will act on your behalf – covered by Digimune for fees up to \$5 000 (or local currency equivalent) per year.

For full terms & conditions, please visit
<https://www.digimune.com/policies/restitution/>

Cyber Warranty

The Digimune DigiCare Cyber warranty guarantees the integrity of its cybersecurity products and the ability of these products to prevent cybercrime, fraud and identity theft against you, the end-user.

Device and Data Loss:

In the event of malware corrupting your device, we fully repair or replace your hacked device.

Financial Extortion:

Should you suffer financial extortion due to ransomware, we will retribute or pay the ransom on your behalf.

Loss of Funds:

We reimburse you for financial loss, in the event of a financial security breach or leaked financial login details.

The DigiCare Warranty cover is limited to the limit noted in the DigiCare Warranty Certificate.

For full terms & conditions, please visit
